shrubs - mixture of all (please circle)

How many plants do you require \_\_\_\_\_

Signed \_\_\_\_\_

**Please return application page by 30th November each year  
to: PO Box 853, Toodyay WA 6566 or email:  
bethanlloyd\_8@msn.com**

**Need more information or advice on preparation for  
revegetation?  
Please phone 9574 5882**

**Plants will be \$1.00 for tubes and will be available for pick up  
at the end of May/early June following year.**

**We grow the tubes in the community shadehouse.  
It is important that you identify the property you want to  
revegetate, the total number plants you require and whether  
you require trees, large or small shrubs. We will then work out  
what plants are suitable for you. If you have specific plant  
requirements we will try to source them but cannot guarantee  
they will be available. We should be able to tell you when you  
place your order. Getting your order in early usually means  
that you are more likely to get what you require.**

**Please return all pots and trays back to the community  
shadehouse for re-use.**

**The shadehouse is located at the community depot in Railway  
Road, past the transfer station.**
